Monday, 30th March 2026

Dear Valued Customer,

To comply with regulatory requirements implemented on 1st January 2026, the shipping industry is now required to submit allowances covering 100% of verified CO₂ emissions.

Accordingly, please find below the **Q2 ETS levels** (unchanged from Q1), including the **FuelEU additional component**, which will be applied to all cargo, full and empty, loading on any vessel from **1st April 2026**. These levels will continue to be reviewed on a quarterly basis.

Ellerman ETS Q2 2026 including Fuel EU Regulations 2026	EUR/TEU		GBP/TEU		USD/TEU	
	Dry	Reefer	Dry	Reefer	Dry	Reefer
Services
